

# CAD605C Instruction

Your original remotes:

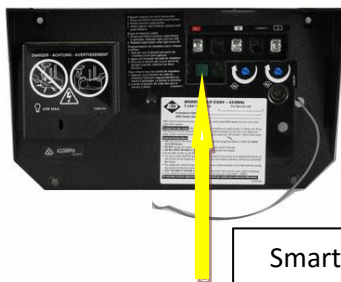

The new one your get from us:

Match the coding exactly same with you existing remote. It will operate common entry door straight away.

This button needs to be programmed if you have a B&D private door. Please follow the following steps:

Smart Button

- Press and **hold** the **B** button on the remote
  - Press and release the Green 'Smart button'
  - Release the B Code button
- The transmitter has been programmed into the opener

## To Erase All Programmed Codes

- Press and hold the green 'Smart Button' until the green indicator light turns off (approx 6 seconds). **All Codes are erased.**
