

Airkey, MBTX4 and MB2TX4 Coding Instruction

Thank you for purchasing MB2TX4 remote. Please follow the steps below to do the program

1. Open the control box of the motor (drive unit)
2. Locate the receiver card in the control box, which should look similar to the picture below (either one of the 2 types)

3. Both of the receiver board has “ADD” button on it, now press and hold the “ADD” button on your board, meantime, press the new remote button once. Then release them.
4. Now you can try to use the new remote.

Attention: Do not touch “CLR” button next “ADD”
