

Stoddart Remote Programming

Follow the four steps below to add a new remote to your opener.

1

Press and release the RED Learn button.
The display should show "bu".

2

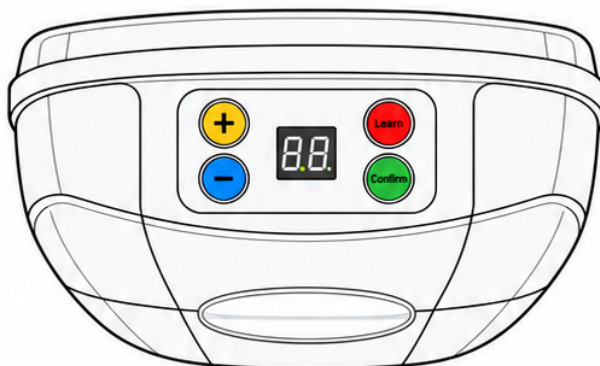

Press and release the BLUE minus (-) button.
The display should show "ru".

3

Press and hold any button on the new remote.
Keep holding until the motor light flashes.

4

Wait 5 seconds, then test the remote.
The remote should now operate the door.

BUTTON / COIN BATTERY WARNING

Keep batteries and this product away from children. Swallowing or inserting a button battery into the body can cause severe injury or death in 2 hours or less. Seek immediate medical attention if a battery may have been swallowed or inserted.
